

GENERAL PUBLIC EXAM ADVICE

Public Examination start times

Morning examinations start at 8.45am and afternoon examinations start at 2.00pm. Students should arrive at least 15 minutes before the start of their examinations. Please note that afternoon examinations may finish later than the normal school finish time of 3.15pm, and in such cases, students who are normally provided with home to school transport will have to make their own way home.

Behaviour

Standards of behaviour during all examinations must be exemplary. No communication of any kind is permitted between candidates once they enter the examination venue. Failure to adhere to these regulations could result in a Suspected Malpractice being raised to the Exam Boards. The possible consequence of this could result in the candidate's paper being void and possible disqualification from taking any further examinations with the Exam Board. Students must not write rude or defamatory remarks on any examination paper.

Absence

Any candidate who is deliberately absent from an examination, may be liable for the cost. Justifiable absence must be explained by a parental note without delay. In cases of illness, any student who wishes this to be taken into account by the Exam Board, should submit a doctor's note (if possible) to enable the Exams Office to apply for a Special Consideration.

Electronic devices

Mobile phones, Wireless Air buds/Wrist Watches/iPods/iPads, SmartWatches/Tom Tom Watches/Fitbits, MP3/4 players, pagers, and any other products with technological/web enabled sources of information must not be taken into the examination room. Wrist watches must be removed prior to entering exam venues. Students found to have any of these on their person in any examination will be reported to the Exam Board, who reserve the right to declare the candidate's result void. Cases of this type will again be treated as a Suspected Malpractice which may incur further consequences.

Dress Code

Students in Years 10 & 11 will undertake examinations in full school uniform. Students in Sixth Form will attend examinations in accordance with the usual standard Sixth Form requirements. There will be no relaxation of our current rules regarding hair (both colour and style) or jewellery (one small stud per ear only) since a change to these rules is unlikely to enhance examination performance.

If you feel it is appropriate, we would welcome donations of serviceable school uniform. Such items can be placed in a plastic bag and handed in to Heads of Year or Elmslie reception.

Equipment

Please make sure you have all the equipment you need for each examination. As a minimum, students should have two pens with black ink, two HB pencils, a ruler and an eraser for each examination. Other equipment, such as colour pencils, Maths equipment and a calculator, may be required for some examinations. Only clear pencil cases are allowed on your desk during the examination. Written answers must be written in black ink. Do not use gel pens. Do not use erasable pens. In an exam where you must use your calculator, you should not have a calculator cover on your desk.

Spectacle cases must not be on desks. Place these either on the floor or leave in your bag.

Food and drink

Food is not allowed in the exam rooms. Water in clear/transparent plastic bottles or beakers with a spill proof cap are allowed in the exam rooms only. There should be no label on the bottle and the bottle should be kept on the floor. Metal flasks are NOT allowed.

Other

George Abbot will deliver and implement the exam process to regulations as set out by the Joint Council of Qualifications (JCQ). In addition, to ensure the exam process is delivered with the minimum level of disruption to candidates, and to avoid incidents being investigated by the Invigilators/Examinations Manager/Senior Leadership Team, candidates need to be aware of the following:

- Mobiles should be switched off in accordance with the schools' policy and left in bags. Any mobile that goes off during an exam will cause disruption to all candidates in the venue. Should this happen, Invigilators will need to investigate the incident discreetly and bags may have to be removed as a result
- Behaviour is to be exemplary. If candidate behaviour causes a disruption to the exam venue, Invigilators will investigate the matter discreetly, and this may require the Examinations Manager and/or the Senior Leadership Team becoming involved
- Responsibility lies directly with candidates who fail to move right away/off site after being dismissed from an exam. Candidates who do not adhere to this will cause unnecessary disruption to candidates who may be still completing their exam. Invigilators will follow due procedure to manage this situation discreetly
- Candidates who have difficulty focusing/concentrating on their exam paper may be allowed to wear foam ear plugs, as shown in the document "Public Examination Advice and Guidance for Students/Parents", as the school cannot operate in total silence
- Candidates who arrive late to exam venues once an examination has started will cause disruption to the other candidates. We appreciate some lateness may be outside the control of candidates. Invigilators will follow due procedure to manage late candidates discreetly. Candidates are expected to own and know their exam timetable and to arrive on time
- Candidates who fail to bring the correct equipment to their exams will cause some disruption to the exam venue whilst this is managed discreetly by the Invigilators
- The lower school years will still follow the normal school routine when moving around the school site. There will be a minimum level of noise whilst the students undertake this. However, measures will be taken to ensure that any noise disruption is kept to a minimum where possible
- Exams Administration within the exam venue: All exams will have a level of administration undertaken in the exam venues. Invigilators are expected to conduct this discreetly and keep all invigilator communication to an absolute minimum to ensure Exam Board regulations are adhered to. This will be conducted professionally throughout the duration of the exam.

It is extremely important that all candidates aware of the above bullet points that could affect their exams. Responsibility lies with candidates to follow this advice to ensure they have a successful exam experience. However, if the above bullet points are not adhered to by candidates, there will be incidents that will have to be managed discreetly and professionally by our External Invigilators/Exams Team because of candidates not abiding by this advice.

Coursework assessments

Effective from 1 September 2025

Produced on behalf of:

This document tells you about some things that you **must** and **must not** do when you are completing coursework.

When you submit your work for marking, you will be asked to sign an authentication statement confirming that you have read and followed these regulations.

If there is anything that you do not understand, you **must** ask your teacher.

In some subjects you will have an opportunity to do some independent research into a topic. The research you do may involve looking for information in published sources, such as textbooks, encyclopedias, journals, TV, radio and on the internet.

You can demonstrate your knowledge and understanding of a subject by using information from sources, or generated from sources, which may include the internet and AI. Remember, though, information from these sources may be incorrect or biased. You **must** take care how you use this material - you **cannot** copy it and claim it as your own work.

The regulations state that:

‘the work which you submit for assessment **must** be your own’;

‘you **must not** copy from someone else or allow another candidate to copy from you’.

If you use the same wording as a published source, you **must** place quotation marks around the passage and state where it came from. This is called ‘referencing’. You **must** make sure that you give detailed references for everything in your work which is not in your own words. A reference from a printed book or journal should show the name of the author, the year of publication and the page number. For example: (Morrison, 2000, p29).

For material taken from the internet, your reference should show the date when the material was downloaded and **must** show the precise web page, not the search engine used to locate it. This can be copied from the address line. For example: http://news.bbc.co.uk/onthisday/hi/dates/stories/october/28/newsid_2621000/2621915.stm, downloaded 5 February 2026.

Where computer-generated content has been used (such as an AI chatbot), your reference **must** show the name of the AI tool used and should show the date the content was generated. For example: ChatGPT 3.5 (<https://openai.com/blog/chatgpt/>), 25/01/2026.

You should also reference the sources used by the AI tool in generating the content.

You **must** retain a copy of the question(s) and computer-generated content for reference and authentication purposes in a non-editable format (such as a screenshot) and provide a brief explanation of how you used it. This **must** be submitted with your work for final assessment so that your teacher can review the work, the AI-generated content and how it has been used.

You may be required to produce a bibliography at the end of your work. This **must** list the full details of publications you have used in your research, even where these are not directly referred to. For example: Curran, J. *Mass Media and Society* (Hodder Arnold, 2005).

If you copy the words, ideas or outputs of others and do not show your sources in references and a bibliography, this will be considered as cheating.

Preparing your coursework – good practice

If you receive help and guidance from someone other than your teacher, you **must** tell your teacher. They will then record the nature of the assistance given to you.

Your parent/carer may provide you with access to resource materials and discuss your coursework with you. However, they **must not** give you direct advice on what should or should not be included.

If you worked as part of a group on an assignment, you **must each** write up your **own account** of the assignment. Even if the information you have is the same, the description of how that information was obtained and the conclusions you draw from it should be in your own words.

You **must** meet the deadlines that your teacher gives you. Remember – your teachers are there to guide you. Although they cannot give you direct assistance, they can help you to sort out any problems before it is too late.

Take care of your work and keep it safe. **Don't** leave it lying around where your classmates can find it. **Don't** share it with anyone, including posting it on social media. You **must always** keep your work secure and confidential. If it is stored on the computer network, keep your password secure. Collect all copies from the printer and destroy those you do not need.

Don't be tempted to use any prepared or generated online solutions and try to pass them off as your own work – this is cheating.

Electronic tools used by awarding bodies can detect this sort of copying.

You **must not** write inappropriate, offensive or obscene material.

Plagiarism

Plagiarism involves taking someone else's words, thoughts, ideas or outputs and trying to pass them off as your own. It could also include AI-produced material. **Plagiarism is a form of cheating which is taken very seriously.**

Don't think you won't be caught; there are many ways to detect plagiarism.

- Markers can spot changes in the style of writing and use of language.
- Markers are highly experienced subject specialists who will be familiar with work on the topic concerned. They may have read the source you are using or even marked the work you have copied from.
- Internet search engines and specialised computer software can be used to match phrases or pieces of text with original sources. They can detect changes in the grammar and style of writing or punctuation.

Sanctions for breaking the regulations

If it is discovered that you have broken the rules, one of the following sanctions will be applied:

- you will be awarded zero marks for your work;
- you will be disqualified from that unit for that examination series;
- you will be disqualified from the whole subject for that examination series;
- you will be disqualified from all subjects and barred from entering again for a period of time.

The awarding body will decide which sanction is appropriate.

What is AI?

- AI stands for artificial intelligence and using it is like having a computer that thinks
- AI tools like ChatGPT or Snapchat My AI can write text, make art and create music by learning from data from the internet, but watch out – they can also make things up and be biased

How can AI be misused in assessments?

AI misuse is when you take something made using AI and say it's your own work.

THIS IS CHEATING!

How do I make sure I don't misuse AI?

1 Know the rules

- You're **not allowed** to use AI tools when you're in an exam
- Your teachers will tell you if you're allowed to use AI tools when doing your coursework – the rules will depend on your qualification
- Even if you're allowed to use AI tools, you can't get marks for content just produced by AI – your marks come from showing your own understanding and producing your own work

2 Reference reference reference!

- If you're allowed to use AI tools, you must reference them clearly
- Name the AI tool you used
 - Add the date you generated the content
 - Explain how you used it
 - Save a screenshot of the questions you asked and the answers you got

3 Declare it's all your own work

– When you hand in your assessment, you have to sign a declaration. Anything without a reference must be all your own work. If you've used an AI tool, don't sign the declaration until you're sure you've added all the references
